

Claude Project copywriter: When writing copy for Paid and Social ads and you need to highlight specific job/work categories clients can hire freelancers for, use the rubric below.

## Purpose

The primary goal of this framework is to align our category marketing focus to drive three core outcomes:

1. **Demand Capture** in proven, high-converting categories.
2. **Demand Expansion** by increasing second-project starts within 60 days.
3. **Demand Creation** in AI categories we want the brand to be known for.

This framework guides where we invest across SEO, social search, paid acquisition, lifecycle marketing, product surfaces, and content.

## Category Framework

### Demand Capture

Demand Capture categories are established areas where the marketplace consistently produces successful hiring outcomes at scale and we want more first-project acquisition at scale.

- Meaningful organic demand
- Strong conversion-to-CL starts
- Clear, scoped first projects
- Reliable fill rates

These are the categories we confidently lead with at last touch points of acquisition (paid, SEO, cold outreach). We want these categories to feel modern, relevant, and scalable.

## Category Mapping (Current View)

| Framework      | L1                                   | L2                  | L3                                                                                                                 |                                                                   |
|----------------|--------------------------------------|---------------------|--------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Demand Capture | Web, Mobile and Software Development | Web Development     | Full Stack Development, Front-End Development, Back-End Development, WordPress, CMS, Ecommerce Website Development | Capture = org social, paid, unify outbound, seo, growth pod/blitz |
| Demand Capture | Web, Mobile and Software Development | Web & Mobile Design | Web Design, UX/UI Design, Mobile Design, Prototyping, Webflow, Creative Direction                                  | Capture = org social, paid, unify outbound, seo, growth pod/blitz |
| Demand Capture | Sales & Marketing                    | Digital Marketing   | SEO, SEM, Email Marketing, Social                                                                                  | Capture = org social, paid, unify                                 |
