X years supporting businesses through freelance work	22	22			
% of contracts completed	72	76			
Average number of freelancers hired per client	5.4	2.9			The "jobs completed per day" metric is calculated as a daily average within each period. The historical figure is averaged across many years (including higher-volume periods), while the 2025 number reflects only activity within 2025.
					So this does not mean that 2025 has more or less daily work than the past — it's simply a difference in the time window used to compute the average.
